

San José State University
Charles W. Davidson College of Engineering
Department of Electrical Engineering
EE281 – Internetworking (Fall 2015)

Course and Contact Information

Instructor:	Prof. Pedro E. Santacruz
Office Location:	Engineering Building, Room 365
Telephone:	(408) 924-3915
Fax:	(408) 924-3925
Email:	pedro.santacruz@sjsu.edu
Faculty Website:	www.sjsu.edu/people/pedro.santacruz/
Office Hours:	Monday & Wednesday, 1600 – 1800
Class Days/Time:	Monday & Wednesday, 1800 – 1915
Classroom:	Engineering Building, Room 331
Prerequisites:	Graduate standing, EE250 (can be taken concurrently)

Course Information and Materials

Course materials such as syllabus, handouts, notes, assignment instructions, etc. can be found on the Canvas learning management system course [website](#). Students are responsible for regularly checking with the messaging system through Canvas and email to learn of any updates.

Course Description

The course provides the underlying principles of modern network design through detailed discussion of existing standards. TCP/IP stack architecture is introduced in terms of the OSI model. Fundamental principles of data delivery and how it is provided by IP and ATM are examined and analyzed. Emphasis is given to IP addressing and datagram routing mechanisms. Performance evaluation, congestion control, and fundamentals of queuing theory are also covered.

Course Learning Outcomes

Upon successful completion of this course, students will be able to:

1. CLO 1 – Understand the OSI reference model
2. CLO 2 – Learn the TCP/IP protocol suite and ATM in depth
3. CLO 3– Analyze routing and scheduling in wireless mesh networks (WMN)
4. CLO 4 – Compare and contrast different routing protocols

5. CLO 5 – Discuss performance of different switching fabrics and their capabilities
6. CLO 6 – Learn congestion control algorithms and analyze their mathematical performance
7. CLO 7 – Understand widely used application layer protocols including HTTP, FTP, and SMTP

Required Texts/Readings

Required Textbook/Readings

- *Computer Networking: A Top-Down Approach* by James Kurose and Keith Ross, 6th Ed., Pearson, 2012
- EE281 Lecture notes, available on Canvas.
- Mininet tutorial

Other Readings

- *Computer Networks* by Andrew S. Tanenbaum, 5th Ed., Pearson, 2010
- *Computer and Communication Networks* by Nader F. Mir, 2nd Edition, Pearson Prentice-Hall, 2015

Lectures

The course will follow the selected subjects as listed on the course description. Additional theory and examples will be given and discussed in class as much as time permits.

Important Note: Attendance is expected. Whether you come to class or not, you are responsible for keeping up with what happens in class. If you miss a class (other than for illness or an emergency), it is not reasonable for you to expect me to repeat the material that was covered in the class that you missed just for you. This applies both to the content of the class as well as to announcements about class policies, events, deadlines, etc. Please note that lecture materials are NOT solely based on the required text and so students are responsible for knowing the contents of lectures in order to prepare themselves for the exams. Students can expect a lower letter grade if they miss too many lectures.

Homework Assignments

Six homework assignments will be given with due dates as shown on the syllabus. Homework must be submitted in class and solutions will be available after the due date.

- Do NOT submit HW via email. Submit HWs in class as hard-copies (paper) only
- Late submission will NOT be accepted (absolutely!)
- There are no make-up homework assignments

To get credit for your homework, submissions must be neat, clean, and must be done professionally. Your official name, course #, and homework # must be visibly shown on each assignment. You are expected to prepare homework assignments individually. You may discuss the problem and general concepts with other students, but there should be no sharing of answers. A good rule to follow is that you should be working alone when preparing the document you will be submitting.

Exams and Final Project

There will be one midterm exam, a comprehensive final exam, and a final project with report. The exam and project due dates are listed on the course schedule section of this syllabus. Since make-up exams will NOT be allowed, please make sure that you are able to attend all exams at the indicated scheduled dates and times (from the beginning of the semester) in order to register for the course.

- All exams are closed-book exams.

- One sheet (double-side) of hand-written notes is allowed for the midterm exam and two sheets of hand-written notes are allowed for the final exam.
- Exam questions will NOT be interpreted during the exam.
- There will be no make-up exams (in very special circumstances, written excuse and official proofs are required for making-up exams).
- Exam solutions will be discussed in class after the exam dates. Written solutions will NOT be distributed.

Grading Policy

The overall course grades (letter-grades) will be assigned based on the grading standard as shown below. The weights of the whole course work assignments are:

- Homework assignments: 15%
- A closed-book midterm exam: 30%
- A closed-book comprehensive final exam: 35%
- Final project and project report: 20%

And the overall course grade (letter-grade) will be assigned based on the distribution below:

Percentage Grade	Letter Grade
94 or above	A
90 – 93	A-
87 – 90	B+
84 – 86	B
80 – 83	B-
77 – 79	C+
74 – 76	C
70 – 73	C-
67 – 69	D+
64 – 66	D
60 – 63	D-
Below 60	F

Classroom Protocol

SJSU classes are designed such that in order to be successful, it is expected that students will spend a minimum of forty-five hours for each unit of credit (normally three hours per unit per week), including preparing for class, participating in course activities, completing assignments, and so on.

EE289 students understand that professional attitude is necessary to maintain a comfortable academic environment in the classroom. Some examples include:

- Students will put their cell phones in quiet/vibration mode during the lecture
- Office hours are strictly for questions and clarification, not for the instructor to summarize lecture for students that have missed class
- Students should come to the class on time and leave the class at the end of lecture to minimize distractions
- Students will consult the course syllabus for class policies and requirements before requesting the instructor for any special considerations and/or exceptions
- To minimize possible tension during the exams, students are requested to follow the exam rules closely
- Email correspondence should be conducted in a professional manner

University Policies

General Expectations, Rights and Responsibilities of the Student

As members of the academic community, students accept both the rights and responsibilities incumbent upon all members of the institution. Students are encouraged to familiarize themselves with SJSU's policies and practices pertaining to the procedures to follow if and when questions or concerns about a class arises. See [University Policy S90-5](http://www.sjsu.edu/senate/docs/S90-5.pdf) at <http://www.sjsu.edu/senate/docs/S90-5.pdf>. More detailed information on a variety of related topics is available in the [SJSU catalog](http://info.sjsu.edu/web-dbgen/narr/catalog/rec-12234.12506.html), at <http://info.sjsu.edu/web-dbgen/narr/catalog/rec-12234.12506.html>. In general, it is recommended that students begin by seeking clarification or discussing concerns with their instructor. If such conversation is not possible, or if it does not serve to address the issue, it is recommended that the student contact the Department Chair as a next step.

Dropping and Adding

Students are responsible for understanding the policies and procedures about add/drop, grade forgiveness, etc. Refer to the current semester's [Catalog Policies](http://info.sjsu.edu/static/catalog/policies.html) section at <http://info.sjsu.edu/static/catalog/policies.html>. Add/drop deadlines can be found on the current academic year calendars document on the [Academic Calendars webpage](http://www.sjsu.edu/provost/services/academic_calendars/) at http://www.sjsu.edu/provost/services/academic_calendars/. The [Late Drop Policy](http://www.sjsu.edu/aars/policies/latedrops/policy/) is available at <http://www.sjsu.edu/aars/policies/latedrops/policy/>. Students should be aware of the current deadlines and penalties for dropping classes.

Information about the latest changes and news is available at the [Advising Hub](http://www.sjsu.edu/advising/) at <http://www.sjsu.edu/advising/>.

Consent for Recording of Class and Public Sharing of Instructor Material

[University Policy S12-7](http://www.sjsu.edu/senate/docs/S12-7.pdf), <http://www.sjsu.edu/senate/docs/S12-7.pdf>, requires students to obtain instructor's permission to record the course:

- Common courtesy and professional behavior dictate that you notify someone when you are recording him/her. You must obtain the instructor's permission to make audio or video recordings in this class. Such permission allows the recordings to be used for your private, study purposes only. The recordings are the intellectual property of the instructor; you have not been given any rights to reproduce or distribute the material.
- Course material developed by the instructor is the intellectual property of the instructor and cannot be shared publicly without his/her approval. You may not publicly share or upload instructor generated material for this course such as exam questions, lecture notes, or homework solutions without instructor consent.

Academic integrity

Your commitment, as a student, to learning is evidenced by your enrollment at San Jose State University. The [University Academic Integrity Policy S07-2](http://www.sjsu.edu/senate/docs/S07-2.pdf) at <http://www.sjsu.edu/senate/docs/S07-2.pdf> requires you to be honest in all your academic course work. Faculty members are required to report all infractions to the office of Student Conduct and Ethical Development. The [Student Conduct and Ethical Development website](http://www.sjsu.edu/studentconduct/) is available at <http://www.sjsu.edu/studentconduct/>.

Campus Policy in Compliance with the American Disabilities Act

If you need course adaptations or accommodations because of a disability, or if you need to make special arrangements in case the building must be evacuated, please make an appointment with me as soon as possible, or see me during office hours. [Presidential Directive 97-03](http://www.sjsu.edu/president/docs/directives/PD_1997-03.pdf) at http://www.sjsu.edu/president/docs/directives/PD_1997-03.pdf requires that students with disabilities requesting

accommodations must register with the [Accessible Education Center](http://www.sjsu.edu/aec) (AEC) at <http://www.sjsu.edu/aec> to establish a record of their disability.

EE Honor Code – Honesty and Respect for Others and Public Property

The Electrical Engineering Department will enforce the following Honor Code that must be read and accepted by all students.

“I have read the Honor Code and agree with its provisions. My continued enrollment in this course constitutes full acceptance of this code. I will NOT:

- *Take an exam in place of someone else, or have someone take an exam in my place*
- *Give information or receive information from another person during an exam*
- *Copy project information from others*
- *Use more reference material during an exam than is allowed by the instructor*
- *Obtain a copy of an exam prior to the time it is given*
- *Alter an exam after it has been graded and then return it to the instructor for re-grading*
- *Leave the exam room without returning the exam to the instructor.”*

Measures Dealing with Occurrences of Cheating

- Department policy mandates that the student or students involved in cheating will receive an “F” on that evaluation instrument (paper, exam, project, homework, etc.) and will be reported to the Department and the University.
- A student’s second offense in any course will result in a Department recommendation of suspension from the University.

EE281 – Course Schedule

Schedule is subject to change with fair notice by class announcement and update to schedule on Canvas

Course Schedule

Week	Date	Topics, Readings, Assignments, Deadlines
1	08/24/2015	Course syllabus, information, and overview
1	08/26/2015	Internet, Packet Switching, Architecture Overview
2	08/31/2015	Architecture, Security Overview
2	09/02/2015	Application Layer: HTTP Last day to drop
3	09/07/2015	Labor Day – Campus Closed
3	09/09/2015	Application Layer: FTP Last day to add and register late
4	09/14/2015	Application Layer: SMTP HW #1 Due
4	09/16/2015	Application Layer: DNS
5	09/21/2015	Transport Layer: UDP
5	09/23/2015	Transport Layer: UDP
6	09/28/2015	Transport Layer: TCP HW #2 Due
6	09/30/2015	Transport Layer: TCP
7	10/05/2015	Transport Layer: Congestion Control
7	10/07/2015	Transport Layer: Congestion Control, Fairness
8	10/12/2015	Midterm Exam Review / Final Project assigned HW #3 Due
8	10/14/2015	Midterm Exam (in Class)
9	10/19/2015	Network Layer: IP, DHCP, NAT
9	10/21/2015	Network Layer: ICMP, IPv6
10	10/26/2015	Network Layer: Routing HW #4 Due
10	10/28/2015	Network Layer: Routing, RIP, OSPF, BGP
11	11/02/2015	Link Layer: Error Correction, Error Detection
11	11/04/2015	Link Layer: MAC
12	11/09/2015	Link Layer: Flow control, ARP HW #5 Due

Week	Date	Topics, Readings, Assignments, Deadlines
12	11/11/2015	Veteran's Day - Campus Closed
13	11/16/2015	Link Layer: Ethernet, VLANs
13	11/18/2015	Wireless and Mobile Networks
14	11/23/2015	Final EXAM Review HW #6 Due
14	11/25/2015	Thanksgiving Holiday – No Classes after 5:00pm
15	11/30/2015	Final Project Presentations
15	12/02/2015	Final Project Presentations
16	12/07/2015	Final Project Presentations
Final Exam	12/14/2015	Final EXAM (Monday, Dec. 14, 2015, 1715 - 1930)
